## Byrne HQ™

HQ stands for headquarters, as in...the place where it all happens. Here, you can plug in your laptop, use USB to power up a tablet, and wirelessly charge your Qi-enabled device—all at the same time. However you connect, HQ delivers fast charging where you work best. Did you forget to pack the power cord, again? There's no need with Qi wireless technology. Just place the phone on Byrne HQ's soft touch charging surface, and you're connected. When powering up is this simple, it feels like your whole day just got a little easier.

Of course, if your device still needs to plug in, Byrne HQ can do that, too. Flexibility is the key here. Technology may be forever changing, but your space doesn't have to. HQ is thinking ahead, providing multiple ways to connect, so that your work surface can really work for everyone. And no sacrificing style—from classic neutrals, to custom leather, felt, and on-trend patterns. With versatile functionality, a clean, modern profile, and plenty of creative design options—Byrne HQ does it all. So you can do it all.
