

DIGI-WAVE 400 CONTACTLESS COMMUNICATION

These days contactless communication is essential to get through our day-to-day lives. People are figuring out ways to work from home and socially distance, but what if this isn't possible in your line of work?

Williams AV has you covered with the Digi-Wave 400, a full duplex portable, wireless 2-way, system for short range communication. The Digi-Wave is ideal for social distancing in a variety of applications including teaching, training, and interpreting. It can also be used in courtrooms, classrooms, hospitals, restaurants and warehouses. In addition, the Digi-Wave 400 is a cost-effective alternative to other expensive 2-way radios.

Features:

- Transmits through glass, curtain walls, viewing rooms for social distancing
- Secure / Encrypted / 2.4 GHz
- Provides contact free wireless communication
- No AC power / No base station components / Rechargeable
- 150-600 ft. range
