PowerTap™

THE HIDDEN POWER CENTER

- 3 Grounded Power Outlets
- Ethernet Connections or USB Ports
- Fire Retardant ABS Housing
- 4 3/8" Total Diameter

Stylishly converts any desk, table, or counter into a ready-to-access power center. Simply rotate the PowerTap with its easy access 180° rotation system and the power center is ready to use.

Quality Matters

Hidden Power Center • Easy Access Rotation System • Complements All Desk Styles

PowerTap™

THE HIDDEN POWER CENTER

Form Meets Function

The PowerTap complements any desk from the most luxurious to the very basic. Not only stylish, its smart design allows for easy access and quick storage. Simply slide the latch to reveal a multi-port power center. When finished, slide the latch and it rotates out of sight under a sleek black cover.

Install multiple PowerTaps on tables and counters where more workstations are necessary. Perfect for conference rooms. Allows easy access to a secure internet connection or USB ports along with a power source. No more crawling under dirty desks in business attire.
