SYM-UN-2AC-1CA-1SS-AWW

### **DESCRIPTION**

Symphony Table Boxes bring elegant form to function. The gentle curved shapes allow for CAT6, 6a or 7 along with AV cables to bulkhead AV connections while maintaining aesthetics in modern interiors. The system provides an attractive user interface while solid construction throughout ensures reliable performance in demanding environments.

Both "Clamp-On" or "Under-Table" styles are offered for table, shelf, or chair mounting.

There are four stock models available with pre-loaded popular connectors selected to satisfy many typical applications. (See ordering table)

On "Assemble to order" units, a very flexible ordering system allows for choice of housing extrusion color, end cap color, and connector insert color. The customer can specify up to five AC outlets, USB charging ports, and low voltage openings that receive FSR Simple Solutions and Hubbell™ keystone style snap in connectors. (See ordering table).

### **FEATURES**

- Elegant Aluminum Design
- No hardware visible to user
- Compact size
- Rated for commercial use
- Designed for 2 to 5 Outlets
