

# M15-13M

## Compact multifunctional document camera

The new AVer M15-13M may be small in size, but it packs a punch to provide your students with the clearest view of your lesson plan content. Between the 13 megapixel camera and 4K output, the M15-13M brings your lesson material to life. Taking a look at crystal formations or a dismantled owl pellet? The 23X digital zoom almost takes you down to the molecular level.

### True distance learning solution

Want to stream and share your lessons with other classes and schools live? The high definition resolution with built-in microphone supports integration with Skype or Zoom applications, while the compact design and rotating camera head allows you to place and point the camera anywhere in the room.

### Compact design

Fully foldable and collapsible, the M15-13M is perfect for the typical crowded classroom, but also is easily stored and secured. Share between classrooms, or move throughout the classroom, the M15-13M can go anywhere.

### Software is as simple as one touch

With our new AVerTouch software, it's never been easier to engage your students with every click! Present real-life content, while enhancing every step of your curriculum with powerful multitasking and editing tools. Then, save your lessons or student projects to the Cloud with one simple touch.

## Engaging visuals

Showcase the vivid colors of a flower, or the fine details of a butterfly, the clarity of the M15-13M is sure to engage and captivate your students like it was right on their desk.
