{M2X} Power to the people. And with Byrne's new M2X power data solution that means a whole lotta power to a whole lotta people. Designed for high density user areas, the back to back design is ideal for applications that require additional capacity with minimal foot print. It is constructed of clear anodized aluminum and scalable to offer the most flexibility of any product of its kind. Each unit includes a voice/data adapter kit (A/V adapter kits and voice / data jacks sold separately). M2X is UL listed and available with a 15 amp cord, Byrne Interconnect, or hardwire versions.
