MARINA™ POWER DOCK

The Marina Power Dock is a sleek and powerful solution designed to tackle the challenges faced by today's meeting rooms. Spill resistant receptacles, 2.1 Amp USB charging ports, and openings for telecom plates are provided on both sides of the unit providing users easy access from any seat. Telecom plates are fully customizable giving customers flexibilty to choose from a variety of A/V and data options catering to the unique needs of each individual application. Sliding doors open to reveal a deep cable compartment with ample storage for excess cabling, remotes, or other accessories. An added convenience outlet on the bottom of the unit can be utilized for power below the work surface and is ideal for ancillary accessories.

Configurations:

MARINA GROMMET DIMENSIONS:
13.20" x 7.95" x 1.74"

MARINA POWER BASE DIMENSIONS:
13.95" x 8.13" x 5.20"
