

OASIS SERIES™

Oasis Series™

BRING POWER AND STYLE TO CONFERENCE AND MEETING ROOMS

The Oasis Series of decorative table toughs integrate modern design elements with power, USB charging ports, and customizable telecom options. Combined, these elements provide a powerful solution to meet technology needs of today and the future.

Whether your application consists of a large conference table or small meeting space, the full size 30" Oasis or smaller 15" Oasis Mini are the perfect solution to meet your individual project needs.

THE OASIS SERIES PROVIDES:

- An integral two door lid with dampened release action which, when opened, retracts into the table to maximize table work surfaces and compliment any design.
- Customization opportunities by mix and matching different inserts to create just the right configuration of power, USB charging, and data options for your application.

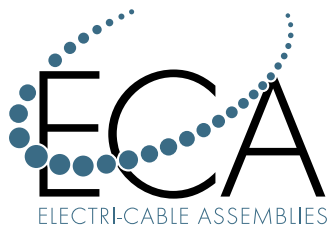

Newly added inserts with built in 2.1 Amp USB charging ports offer users additional opportunity to charge mobile phones and tablets while in use so you never have to be without your favorite devices!

- Versions compatible with our DaisyLink™ system offer an easy way to link multiple units together from one power infeed minimizing power cord management from the floor to the underside of the table.

Oasis units are available in Black or Clear Brushed Aluminum, and Black or Silver powder coat finishes.
