## PSE-1

10Gb UHD Power Over Ethernet Injector

---

The PSE-1 provides power remotely over Ethernet to any device capable of acting as a PoE acceptor (for example, a wallplate, where it may be difficult to connect an external power supply). This allows a single HDBT LAN cable to provide both data and electrical power to compatible devices.

## FEATURES

---

- Total Range - Up to 100m (328ft) @4K on shielded BC-DGKat623 or BC-HDKat6a cable (or equivalent).
- 48V DC Power.
