The diagram illustrates the connection of two laptops to a multi-port interface unit. The unit features several ports: CONTROL, AUDIO, and USB DEVICES. Two cables, labeled 'V', connect the laptops to the unit. One cable connects to a port labeled 'K' and the other to a port labeled 'V'.

The diagram illustrates a computer system setup. At the top, a computer unit is shown with various ports and connections. On the left, a keyboard is connected to a port labeled 'K'. In the center, there are ports labeled 'CONTROL' and 'AUDIO'. On the right, there are ports labeled 'Data' and 'CES'. Below the computer unit, a keyboard and a mouse are shown. Dashed lines with wireless signal icons indicate that both the keyboard and the mouse are connected to the computer unit wirelessly. The keyboard is labeled '[CFE] Keyboard' and the mouse is labeled '[CFE] Mouse'.
