Step 2: mounting the RK-21

The **RK-21** Rack Adapter lets you mount a Kramer desktop device to fit into a 19" rack space.

Step 1

Turn the desktop device upside down (the Kramer **VP-440** in this example).

Fit the two extension brackets to the sides of the device.

Step 2

Attach both extension brackets (one on each side of the device) by screwing four M3x5 screws (two on each side) through the brackets and onto the four holes in the device.

Step 3

Turn the device and attached brackets upright.

Attach the fastening bracket using 2 M3x5 screws.

The device can now be attached to a 19" rack space.
