

TB-BOSE TB-BOSE-IPS Table Boxes

FSR

Metal Products Group

TB-BOSE

Speaker provided by customer

DESCRIPTION

The new TB-BOSE and TB-BOSE-IPS table boxes are tilt top style table boxes designed specifically to contain a Bose™ FreeSpace 3 Surface-Mount Satellite Cube Speaker. There are 2 basic sizes of table box, the TB-BOSE contains the speaker only and the TB-BOSE-IPS contains the speaker and a section to the right of the speaker for up to four (4) IPS (Intelligent Plate Solutions) insert plates.

The TB-BOSE and TB-BOSE-IPS table boxes are available in Black Anodized finish. In the open position the speaker will be at approximately a 35° angle from vertical. This is to accommodate a seated person at the table with the box being 22" from the edge of the table. There is up to 4" of clearance behind the IPS plate surface.

IPS INSERTS

The IPS (Intelligent Plate Solutions) line offers a wide variety of interconnect solutions that satisfies virtually any AV and DATACOM interface application. Customizing just became standard at budget friendly prices. Create unlimited combinations of connector inserts with this diverse assortment of IPS inserts that work well with the TB-BOSE-IPS table box.

The insert connectors are mounted to steel plates insuring a lifetime of service. The inserts are available with no labeling, standard labeling, or FSR will custom label them for you as well. Additionally, our IPS inserts can be changed at any time for easy upgrade. All IPS inserts carry a limited lifetime warranty.

APPLICATIONS

- Court Rooms
- Desks
- Boardroom Tables
