Table Boxes. Boxes sold separately.

TBRT Retractors

TBRT with
T3-IPS Series Table Box

DESCRIPTION

FSR's Cable Retractors balance form and function, making tangle-free cable management an easy task. This cable management system offers convenience as well as cable storage and protection, hiding unsightly cables when not in use. The cables can be quickly deployed by the user and extend to any length, up to four feet. A simple pull and release of the extended cable is all that is needed to return the cable to the protective reel. No button release is required.

The TBRT assemblies can be ordered in HDMI (4 color coded cables available for integration with HuddleVU systems), HD-15 (VGA) with fixed 1/8" stereo audio jack, CAT-6, 1/8" Stereo Audio, Display Port ++, Mini Display Port and USB. All cables are of highest quality and are tested for longevity. When used with the FSR T3-IPS or T-6 series Table Boxes, the adapter kits allow mounting of up to four cable retractor assemblies below the T6 Table Boxes and one retractor on the T3.

The Cable Retractors can also be mounted in a horizontal position under a table surface to maximize space and provide clearance for seating.

APPLICATIONS

- Court Rooms
- Desks
- Boardroom Tables
- Lecterns
- Control Consoles
- Lab Tables
- Classrooms

FEATURES

- Easy user access
- 4' of cable plays out from the top of the retractor
- 7' of cable exits from the rear of the retractor under the table
- Theft deterrent
- Choice of connector types and color coded to match HuddleVU systems
- Easy stackable mounting
- Ready for use in FSR's T6 and T3-IPS Table boxes

This symbol indicates
the device is
RETRACTOR Ready
and accepts the number of
retractors shown in the circle.

OTHER FSR PRODUCTS

HuddleVU Collaboration Systems

Collaboration, Interactive Learning or Huddle Stations! Whatever name you give it, students, doctors, or business professionals gather to work together on projects, perform research and review completed works. HuddleVU is the perfect solution.

HuddleVU offers several different systems to meet your requirements, and provides workspace and connections for up to 7 students or faculty members. There are AC and USB power connections and color coded HDMI cables for each user. Simply plug in and push the color coded button and the user's notebook or tablet has control of the screen. Systems are also available for 2 or 4 screens using the T6-Flex touch screen control system.

Check out our new line of Collaborative Tables

You can install it in your table, go to your favorite furniture manufacturer, or order a table from FSR. We stock several tables for a quick delivery, but you can also select any color table from the Wilson Art laminates.

Specifications are subject to change without notice.
