VILLA™ II SINGLE CIRCUIT CORDED SERIES

The Villa II expands on popular elements of our standard Villa by providing added features to address undertable power applications and cord management. Villa II provides two power receptacles easily accessible from the table top, as well as three convenience receptacles below the work surface offering additional opportunity to power ancillary devices or accessories like lamps, monitors, and computers. An integral access hole and cable tabs allow for built-in wire management. Choose from a variety of configurations featuring power, data, and 2.1A USB charging ports to meet the best fit for your individual application.
