

# VILLA™ II CORDED SERIES

NOW  
AVAILABLE

**Newly added 2.1A USB  
charging ports charge your  
favorite devices while in use!**

## Villa™ II Corded Series

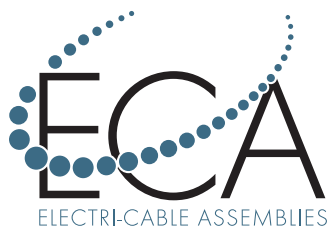

# EASILY ACCESSIBLE POWER AND CHARGING

The Villa II Corded Series is designed to provide easy access to power, USB charging ports, and data capabilities from the table top. In addition, three convenience outlets below the work surface address the growing need for users to connect ancillary devices and accessories. A grommet is then dropped into the table top for a complete finished look.

## THE VILLA™ II CORDED SERIES PROVIDES:

- Access to power above and below the work surface allowing users to easily connect portable tablet or mobile devices and stationary accessories like lamps, monitors, or computers.
- Power, USB, and data options offered in a variety of finishes to accent every decor.
- An integral access hole for pass through cables giving users additional opportunity to plug into the convenience outlets on the bottom of the unit minimizing cable clutter.
- Cable tabs on the bottom of the unit help manage wires and secure laptop accessories.
