

W-LM

Wall Plate Insert – Volume Control & On/Off Switch

The W-LM is a remote volume and mute control insert for frames, TBUSes or floor boxes. The unit remotely controls the volume of any Kramer power amplifier or preamplifier that has a remote volume control port, such as the 908 and 912.

FEATURES

- **Controls** - Combined volume control and push-ON/push-OFF switch.
- **Size** - Single slot wall plate insert.
